**Description**

BaySaver Technologies' Applications Engineers and Project Managers provide customers with timely solutions regarding the company's products and applications. These water resource engineers develop and assist with the development of stormwater treatment systems in the Mt. Airy, MD based hydraulics laboratory. Necessary qualifications include: ability and desire to work with diverse constituencies, solid AutoCad and PC skills, interest in fluid mechanics, water treatment, economics, hydraulics laboratory operations, and a desire to develop leading-edge knowledge in stormwater treatment systems. BS/MS in engineering or related field is preferred. Field testing programs related to stormwater quality are ongoing, which require 10% travel. If you're interested in becoming a part of the BaySaver Technologies' professional team of dedicated stormwater treatment experts, please send your cover letter and resume to info@baysaver.com or fax your interest to 301-829-3747. EOE.
